Scotland to England Green Link – SEGL2

Non-statutory public consultation

The Scotland to England Green Link - SEGL2 - is a proposed project by National Grid that will help to deliver greener energy to homes and businesses across the UK.

If approved, the project will increase the capacity of our network between Scotland, with its many renewable energy sources, and the rest of the country, helping the country meet its net zero ambitions. To do this, we are proposing the construction of a new High Voltage Direct Current (HVDC) link - an electrical superhighway - between Peterhead in Aberdeenshire and Drax in North Yorkshire, travelling most of its way under the North Sea.

We'll be holding an online public consultation on the project from **Monday 29 March 2021** to **Friday 23 April 2021**, where we will share our plans and ask for your feedback. Below are dates and times for our live sessions:

Date	Time	Format
Tuesday 30 March	4pm – 8pm	Live Q&A session
Wednesday 31 March	8am – 12pm	Live Q&A session
Thursday 1 April	1pm – 4pm	Live Q&A session
Tuesday 13 April	8am – 9:30am	Video drop-in session
Thursday 15 April	3pm – 4:30pm	Video drop-in session
Tuesday 20 April	6pm – 7:30pm	Video drop-in session
Friday 23 April	10am – 11:30am	Video drop-in session

Please register in advance for our video drop-in sessions via our website.
