Subject: The National Grid Electricity Transmission plc (Scotland to England Green Link 2) Compulsory Purchase Order 2023

Dear Sir,

We the undersigned wish to lodge our objection to the compulsory purchase order over our land.

In our opinion the main point of objection is that it is premature for the Secretary of State to issue a compulsory purchase order because National Grid has not exhausted its voluntary negotiations with us.

For example we are still waiting for a definitive and clear response on the rights which NG is seeking from us over the coloured blue on the Heads of Terms Plan.

The process is not progressing as NG is extremely slow in responding to any enquiry we have. As this construction goes over our land close to our homes, across not only arable land but one of our drives it is imperative that we are clear what is going to happen, on what timescale and which actual land, this is proving difficult to achieve.

Until this is achieved we feel NG are getting the 'cart before the horse' in applying for a CPO and would urge the Secretary of State to delay making this decision until NG have explored and explained these basic concerns.

As we have seen with HS2 it is best not to get too far ahead of ourselves as we could end up with egg on our face, or NG could.

We the undersigned are joint owners of this land.
