

Upcoming cable works near Lund – July and August 2026

We will soon begin work to prepare areas for the installation of the underground electricity cables as part of the Eastern Green Link 2 (EGL2) project.

Works near Lund

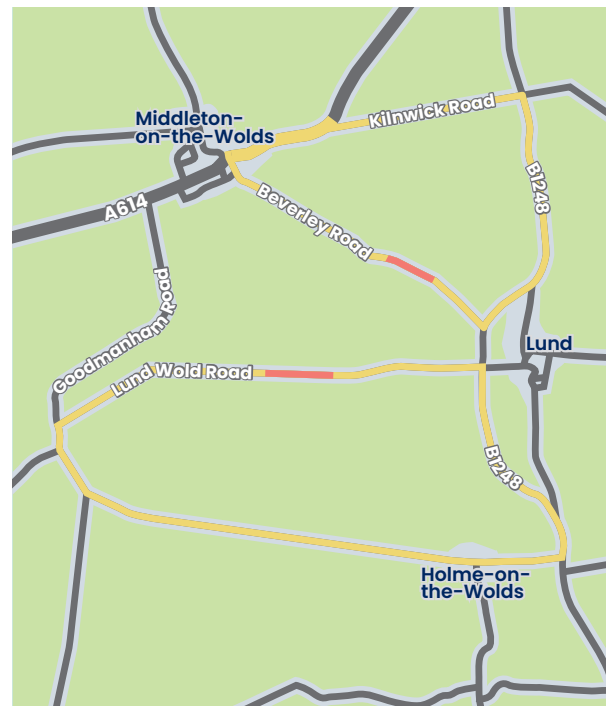

We will be carrying out works **on Beverley Road and Lund Wold Road** between Lund and Middleton-on-the-Wolds. Works are anticipated to start on **Monday 27 July** for a period of approximately **two weeks**. During this time a road closure is expected to be in place on **Beverley Road** between **Monday 27 July and Monday 3 August**. A closure on **Lund Wold Road** is expected to be in place between **Monday 3 August and Monday 10 August**. Signed diversion routes will be in place and both road closures will not be in place at the same time. You may also notice an increase in construction traffic and some noise during working hours. We know this may be disruptive and we will do all we can to reduce the impact.

In your area, we will be installing the underground cable using a method called trenching.

Trenching involves digging a narrow channel in the ground. Protective plastic ducts are then laid in the channel. These ducts protect the cable and provide a safe route for installation.

Once the ducts are in place, the channel is filled in and the cable will then be pulled through the ducts from one location to the next. When all work is complete, the land is reinstated and returned as closely as possible to its previous condition.

 Road closure  Diversion route

The works to install our underground cable are being led by our contractor partner:

EGL2 Yorkshire Local Community Fund

The EGL2 Yorkshire Local Community Fund is now open for applications.

Our fund supports impactful projects in communities near to our EGL2 project in Yorkshire, with grants available across a range of areas.
